South End Still Pending

Wind-Up Work is Under Way On North End of Nameoki Rd.

Nameoki road is getting its finish coat of asphalt to complete the widening and improvement project started last year. Application of the final layer was started this week by the project contractor, General Contracting Co. of Granite City, and is expected to be completed within a short time.

With the north section of the roadway in its final stages, Alderman Fry called for a report during Tuesday night's recessed session of the city council on the improvement of the south section.

Horace Calvo, who was present as the city's sewer bond attorney and who will be handling the right-of-way condemnations for the state, said all petitions will be going to the state highway offices in Springfield this week and that it would be 45 to 50 days before the state would have title to needed properties in order to call for bids.

Calvo explained the state must have the property titles before a bid call is made. He added that about 10 to 12 days would be needed before the paper work can be cleared in Springfield and that for quick take of the tracts, the motions must be on file in the court for 30 days.

False Fire Alarm At Tri-City Warehouse

Two companies of Granite City firemen and the new aerial ladder truck were dispatched at 9:20 p.m. yesterday to the Tri-City Grocery Co. warehouse, 16th and State streets, on what proved to be a false alarm.

Firemen said the alarm was turned in by a man. They spent 20 minutes inspecting the warehouse.

At 7:50 p.m., James Jeffries, 2877 Center street, drove his auto to the main station to have a smoldering fire extinguished. Firemen set the loss at \$100 to the car. Jeffries told a cigarette apparently had been thrown into the car while he was at Mounds State Park and that he had tried to put it out with a hand extinguisher.

Teacher Talks at Madison Await State Aid Law

Further negotiations with the Madison Federation of Teachers for a 1967-68 agreement have been postponed until September, Raymond Dragich, Madison superintendent of schools, informed the board of education Tuesday night.

Dragich said he is unable to extend a tentative offer to teachers until the Illinois General Assembly acts on proposed House Bill 1785, the foundation level bill, which would determine the amount of state aid to schools. Action on the bill is expected next month, he said.

If the state aid increase bill passes, Supr. Dragich was authorized to appoint two remedial reading teachers — Mrs. Mary Evans for Harris and Louis Baer schools and Mrs. Clara Horton for Blair and Dunbar schools.

The appointment of James North, a teacher at Louis Baer school, as reading coordinator for the district was approved by the board.

Hire College Coeds

The superintendent also reported that he plans to employ college coeds to staff the district's summer school, "head start" and recreation programs if a sufficient number can be obtained.

He said about 25 teachers will be employed in the summer program for under-achievers, which will be held for elementary school children from June 7 to July 19.

The board accepted resignations from three teachers at Harris school and retirement of two more teachers at Harris and the head cook at Louis Baer school.

Resigning are Mrs. Janice Hoof, second-grade teacher, and Mrs. Terry Papa and Mrs. Kathleen Ashley, both first grade teachers, all for family reasons.

Retiring (are Mrs. Eulalia Francis, second grade teacher; Mrs. Carrie Hinkle, third grade teacher; and Mrs. Laura Walton, cook).

Employ Teacher, Cook

The board hired Mrs. Terry Bartels of Washington Park, who is to graduate from McKendree (Continued on page 3, col. 3)

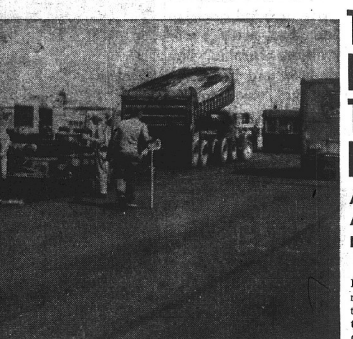

Accounts are Closed

The city of Madison closed out its Chain of Rocks Bridge accounts totaling \$196,732 and transferred the funds to city special revenue accounts in actions taken by the city council Tuesday night.

Included were \$136,681 in a bridge toll fund and \$60,151 in a regular bridge fund. The council left \$917 to pay for outstanding bridge bills.

Also remaining from bridge operations is a \$2,489,000 fund under investment with local banks. The city receives 4% interest on the investments annually.

One remaining audit on bridge accounts has yet to be made, as the bridge was not operating as toll pass for three months of the 1966-67 fiscal year before tolls were removed on Aug. 1.

Koenig, Granite City civil defense director said today.

Each of the city's seven new sirens had responded to manual control when recently installed by engineers. He added that the technical difficulty probably had occurred due to the same voltage flow between the primary hookup and the main switch at city hall.

Sackett Gets Washington U. Baseball Job

Ralph Sackett, Granite City high school head basketball coach for the past two years, has been appointed as head baseball coach by Washington University, St. Louis.

The announcement was made at a luncheon yesterday held by university officials at a St. Louis country restaurant, with Sackett attending.

While here, Sackett led Warriors cage teams to an overall record of 31-and-24, finishing at 15-and-12 in 1965-66 and 16-and-12 in 1966-67.

A Collinsville high school graduate, he has had as one of his main ambitions to defeat his old school team and coach. He nearly did so as GCHS reached the finals of the rugged Edwardsville regional tournament in March.

But the Warriors dropped the regional title to the Collinsville Hawks 7-65.

Sackett's resignation is expected to be considered by the Granite City board of education at its next meeting Wednesday night, May 24.

Adults Sought For Junior Park Baseball League

The Granite City park district is seeking a volunteer manager and coaches for a 15-17-year-old boys' baseball team to complete formation of a junior division in the summer program.

Supt. Harold Brown said three teams have been formed and are ready to play—sponsored by De Witt Funeral Home, Western Auto and Paul Sebold Concrete—and that more boys in the age group have asked to play.

A four-team league would provide better scheduling, Brown added. Those interested in participating may call the park district office at Wilson Park.

First GC Sabbatical Leaves

Expanded Teacher Research, Study Likely in Near Future

With a sabbatical leave program instituted by the Granite City school system scheduled to "get off the launching pad" this year, even greater utilization of the plan is expected in future years, Supt. 206 J. Davis said this week.

The school board has authorized Mrs. Sara Sowell and Alfred Leavell, the only current applicants, to take sabbaticals for the 1967-68 term. For 1966-67, there was one application, turned down by the screening committee and board.

When adopted on March 8, 1965, the program was described as intended "primarily for the improvement of the school district and secondarily for the individual's benefit." It is available to 1% of the faculty in any one year, or about six teachers.

Sabbatical leaves may be used for research, study, travel or other purposes approved by the school board upon the recommendation of the superintendent and the screening committee.

Screening Group

The eight-member committee consists of two high school teachers, two junior high school teachers and four grade school teachers. Each year, two members are replaced. Membership is agreed upon by Supt. Davis and the Salary and Policy Committee of Local 743 of the American Federation of Teachers.

Applicants must have a bachelor's degree, at least six consecutive years of full-time experience in the Granite City district and at least seven full years of teaching service available before the mandatory retirement age.

Teachers given sabbatical leave are paid \$5000 (bachelor degree) or \$5400 (master degree) for the year, on a bi-weekly basis, or half their yearly salary, whichever is greater. The school district pays their contribution to the Teachers Retirement System based on normal teaching salary. They receive all benefits normally accrued while teaching.

Return to Same Posts

Sabbatical leave time is not construed as a break in service. Those returning are placed in the same position and building occupied before the leave, unless the teacher makes a written request for a change and it is approved by the superintendent. If the position or building has been eliminated by necessity.

Any one person cannot qualify for a sabbatical more than once every seven years.

All who are granted such leaves must return to the Granite City system for at least one full year's service immediately after the leave, or must return

all funds received under the sabbatical leave program. Exceptions are death or permanent disability.

The return service requirement can be postponed at the discretion of the board upon the recommendation of the superintendent and committee.

A sabbatical in some cases may be continued for the benefit of the school district to complete work in process. Benefits continue but there is no salary during the continued portion. Those on continued leave do not count against the 1% quota.

100% for 15-Year Teachers

An improvement added for the 1966-67 agreement may aid in encouraging more applications, Supt. Davis noted.

This increases to 100% the sabbatical compensation for a teacher with 15 or more years of service without such a leave. Pay during the sabbatical remains \$5000 or \$5400 or half the basic salary, and the remaining balance is then pro-rated and paid bi-weekly during the next three years of local service after return from leave.

Duty of the screening committee is to evaluate written applications and recommend to Supt. Davis an order for selection of the sabbatical candidates. Names of all applicants are shown on the list of recommendations.

Preference is given to the candidates whose work plans are primarily for the improvement of the school district. Work plans are submitted along with the initial leave application. Monthly progress reports are to be sent to the school system by all on sabbatical leave.

Graduate Study

Mrs. Sowell will participate in the "Newtop" program being instituted at SIU-SW, leading to a specialist degree in education. She is the district's consultant on education of gifted and talented students.

Next year requires that participants spend one day a week in their home district as part of the training. She will continue to coordinate student teachers in non-graduate schools and will be responsible for state reimbursement applications and agreements.

Leavell, a Granite City high school social studies teacher, plans to do graduate work leading to the degree of doctor of education.

Next sabbatical leave applications, due by Feb. 15, 1968, are due in the board office by Feb. 15, 1968. There they will be dated, recorded and forwarded to the committee for their recommendations by March 20 and board action no later than the first meeting in May 1968.

EOC Seeks Volunteers To Help At Centers

A plan to use volunteer workers in the Neighborhood Service Centers in the Quad-City area and Alton was announced Monday night by the Madison County Economic Opportunity Commission. Maurice S. Harris, executive director, also invited a plea for volunteers to register immediately "if they can give even an hour of their time each day."

Harris said an effort is being made to register at least 20 volunteer workers as soon as possible since in-service training will start soon and it would be better for the volunteers to start the program with the regular staff workers.

"We are very much interested and desirous of having persons who have some time to spare give of their time and talent in service to our less fortunate neighbors," Harris said.

"There are many tasks which can and will be done by volunteers, tasks which are meaningful and which will go a long way toward helping us reach our goal. Any person who can volunteer one single hour per day can accomplish much. When his or her efforts are combined with those of other concerned individuals."

The commission also approved and accepted in meeting Monday night the "Foster Grandparent" program designed to benefit both emotionally deprived children and "senior citizens."

The approved program is a pilot project and will be in operation at the Alton Catholic Children's Home and the Alton State Hospital. About 30 children between six and 14 and about 20 elderly persons who will serve as foster grandparents will be involved in the program at the two Alton institutions.

Madison-18th Accident

Two cars were damaged in a collision at Madison avenue and 18th street at 6 p.m. Tuesday. Police said a car driven by Conrad Biter, Miller, Mo., and one driven by Gail A. Miller, Godfrey, collided as the Miller car made a left turn at Madison avenue. Both cars were headed south when the accident occurred.

Two Arrested, Charged With Passing Toll Booth

Michael Meinhold, 18, of Bridgeton, Mo., was arrested by Venice police Tuesday afternoon on a charge of failure to pay toll fees on McKinley bridge. A passenger in Meinhold's car was charged with disorderly conduct for becoming abusive at police headquarters.

Police reported Meinhold ran the toll station on McKinley bridge about 1:15 p.m. Tuesday. Meinhold turned from Broadway onto Klein street and was overtaken by police at Klein and Brown streets. Meinhold and Anthony Galati, 22, of St. Louis, posted \$25 each bail each pending a hearing June 7 in magistrate's court. A third man, also a passenger in Meinhold's car, was arrested during the incident, but charges against him later were withdrawn.

Asphalting Bad Sidewalks Suggested as Moneysaver

Consideration will be given to blacktopping defective sidewalks in Granite City rather than the more expensive method of removal and replacement with concrete.

The suggestion was made at Tuesday night's recessed council meeting by Mayor Partney, who said he noticed it is being done in other cities.

"It should cut the cost in half," he added. The new Street committee chairman, Alderman Ford Johnson, was asked to get a cost figure.

Alderman Robertson said he suggested the method to the former Street committee about two years ago and added that it probably could be started on an experimental basis.

A bid has been obtained for metal concrete forms for sidewalk work by the Street department and was referred to the committee. The bid was \$1231.

Johnson said he plans to confer with state highway officials for replacement of additional sidewalk along the northern section of Nameki road, and with Mayor Partney will investigate complaints that trucks from Granite City Steel Co. are damaging the roadways in the 1600s block of Iowa street and Washington avenue.

Distinctive City Line

Alderman Dallas said the city probably will have to install drainage lines there to keep the roadways intact, and Boyd commented the city also should consider installation of curbs. "You can certainly tell where the Madison city line is just by where the curbing ends," Boyd added.

Other recommendations made to the Street committee for study were the need for regular electric traffic signal lights at 29th street and Madison avenue rather than the present school signals and for alleys to be posted with 10 to 15 mph speed limit signs.

Alderman Robertson called for a study of the 29th and Madison lights, saying the need for regular signals might become greater when the city's new one-way street system starts. Poulos said he has received complaints from Third Ward residents of speeding in alleys.

Permission was given for Union Starch & Refining Co. employees to have a truck parked on the street near the plant next week to collect canned goods and other foodstuffs for striking workers at the Duncan Foundry in St. Louis.

Alderman Steve Basarich praised the fire department for its work at a recent early-morning house fire on Poplar street. "The flames were through the roof before the alarm was turned in, and the firemen prevented the blaze from spreading to the houses on either side, just four to seven feet away. You might say they saved the entire block, and they even went inside the house to search it for people," Basarich said.

A General Steel Industries employee, John McCalla of Wordin, is planning to circulate petitions opposing a bill in the house of the Illinois legislature which he said would "drastically curtail the hobby-breeding of dogs in the state."

Mental Health Center Staff To Be Doubled

The staff will be doubled and some cases tripled after July at the Madison County Mental Health Society-Quadrant Center in Granite City. Jerry Staten, executive director, said yesterday. Addressing Madison Rotarians, Staten noted that the present staff consists of a psychiatrist one week, a five-days-a-week psychologist, a one-day-a-week psychologist, two half-time psychiatric social workers, a graduate student three days a week, two secretaries and the administrator.

The new schedule—made possible by establishment of a Madison county property tax through a referendum approved last November—includes a psychiatrist three days a week and an increased number of psychologists and social workers, the speaker related.

Preventive Therapy
The demand will exceed available funds and manpower for some time, but a gradual solution is expected to be achieved because the program is two-fold, Staten said; not only are adults and children counseled about existing emotional problems, but children are being aided in a preventive program which should enable many to avoid difficulty as adults, reducing the future caseload.

Stress and anxiety linked with work, home life, traffic and other situations are common causes of beginning emotional disorders, the club was told.

These lead to such problems as drunkenness, promiscuity, arguments, fights, depression and aggressive behavior, Staten said, adding that therapy and medication usually can remedy the ills.

Illegal Liquor Possession Charged Against Four Men

Granite City police arrested Gary Greenman, 24, of 2307 August avenue, at 2:15 a.m. Tuesday in Niedringhaus and Washington avenues, on a charge of driving on the wrong side of the street and illegal transportation of liquor.

Arrested with him were three companions, all of whom were charged with intoxication and illegal possession of liquor. They were Joseph Modrusic, 21, of 711 Lee avenue, Madison; Andrew Modrusic, 21, of 921 Grand avenue, Madison, and Clarence Hartline, 22, of 2944 Iowa street. Andrew Modrusic and Hartline were fined \$75 each.

Cars Collide, Damaged

A car driven by David Coffman, 2219 Edison avenue, was struck from the rear about Tuesday afternoon by a car driven by Timothy C. Earney, 2874 Park avenue, according to a report to police. Both cars were headed north on Madison avenue and Coffman stopped for traffic at 17th street when the collision occurred police said.

Police usually can remedy the ills.

Treatment, Referral
"While we are basically a treatment center, we also serve as a referral agency," Staten explained. "Cases which we can aid directly are handled, and others are referred to a specific agency appropriate to their needs."

Staten said a consultative service has been formed with the Highland school district and is available to other schools. He stressed that many recreational and community service activities unrelated to the field of mental health help create an environment useful in preventing personality and other emotional maladjustments.

Harry B. Johnson of Madison, one of the seven Madison county commissioners who will supervise use of mental health taxes, said clinic services here and elsewhere have substantially reduced the number of in-patients at mental hospitals.

Many people who previously would have resided permanently in hospitals now are able to live at home and enjoy productive lives, Johnson said.

Frank Fijan served as program chairman. The annual Madison Rotary installation dinner was set for June 21 at the Rose Bowl restaurant.

Active Music Career by Mother of Six

By DONNA HOGAN
Mrs. Alan (Nita) Dale, a Granite City lyric-coloratura soprano, is a busy mother of six but has not given up an active role as a musical artist.

She will share honors with Tom Wilson, a baritone, at the fine arts concert to be held at the First Presbyterian Church, Decatur, Sunday, May 21, at 7:30 p.m. The concert will be open to the public.

Both performers will present solo numbers and conclude the program with duets.

Mrs. Dale's program will include "The Prayer Perfect" (Strauss), "Impatience" (Schubert), "Una Voce Poco Fa" from the "Barber of Seville" opera (Rossini), "O Mio Babbino Caro" from "Gianni Schicchi" (Puccini) and "Die Fledermaus" (Strauss).

The duets will be "Sunrise Sunset" from "Fiddler on the Roof," "Will You Remember Sweetheart" from "Maytime" (Romberg) and "Autumn Song" by Mendelssohn.

Mrs. Dale resided in Decatur until moving here in August 1966. Her parents and three brothers are all interested in the musical field, as are her children. Jenna plays the flute in the Coolidge junior high school band. Joyce is in her third year of studying the violin under the direction of William Magers at SIU-SW. Jeff is studying the saxophone and Lynn sings and will begin the violin with John Kendall at SIU-SW this fall.

Mrs. Dale has been studying with Mrs. Gabriella Ughy Ughely, known affectionately by her students as "Mama Naga," in Decatur. Mrs. Ughely came to America from Hungary during the revolution of the 1910s and is celebrating her 50th year of teaching.

Bridge Traffic Still 6% Below Last Year

McKinley Bridge traffic continues to lag about 6% below the 1965-66 record year of 5,088,599 crossings, record of Bridge Manager Henry McMullen indicates.

Through the first seven months of the current fiscal year, October 1966-April 1967, vehicles have totaled 2,753,794 or 173,222 less than the 2,927,016 figure at a similar point a year ago. Daily average has been 12,885. This is below the record monthly average of 15,941 in all of 1965-66 but exceeds the average for any year prior to 1961-62.

The current downturn began with opening of the Interstate Route 270 free bridge Sept. 2, 1966. Operation of the bridge by the city of Venice began Nov. 21, 1966, and the traffic volume expanded in 1961 following remodeling of the bridge and connection with the Mark Twain Expressway in Missouri.

The latest traffic report, for April, lists 92,357 in the first week, 92,178 in the second week, 95,720 in the third week, 94,712 in the fourth week and 15,849 in the final two days, a weekend. Time also to serve as secretary for a total of 390.316. Daily average in the past month was 13,027.

Personnel Committee Abolished

Partney Names Committees; Few Changes in Chairmen

New council committees were named Monday night by Mayor Partney for the start of the new fiscal year, and aldermen will be given several days to determine if they want to make any changes.

The appointments by Partney were accepted by the council, and in separate action, the aldermen voted 13-2 to abolish the Personnel committee.

"I think the mayor's making a mistake," the Personnel committee was not listed among his appointments. The controversial committee has in the past two years handled work agreement negotiations with city employee groups, established a group insurance program for employees and has interviewed applicants for city jobs.

14 Committees

Fourteen three-member committees were named.

Finance—Rutledge, Jarrett and Fry; Ordinance—Nomm, Poulos and Dawes; Police—Whitmer, Fry and Robertson; Traffic—Whitmer, Jarrett and Parmley; Lighting—Basarich, Dawes and Green; Planning and Zoning—Rutledge, Johnson and Nomm; City Buildings—Bartosiak, Dallas and Basarich; and Pollution Control—Moerlein, Rutledge and Fry.

\$10,000 Injury Suit Filed Against City

A summons in a \$10,000 injury suit against the city and two notices of other claims to be filed were received Monday night by Granite City council members who referred the documents to City Atty. Allen.

The \$10,000 suit was filed by Lloyd Cavanaugh, 3812 Kirkpatrick Homes, on behalf of his 11-year-old son, Paul, who nearly lost a finger last Nov. 3 when he was leaning against a stop sign at East 25th and Henry streets, and the sign slipped.

Mrs. Lexa Myrtle Hobson, 2921 Iowa street, advised the city she intends to file suit because of a mishap occurring on a sidewalk on 29th street near Madison avenue, and the city was advised by Everett H. Lewey that he is seeking \$1635 from the city as the result of an accident which occurred last March 6.

City to Require Bonds for Out-of-Town Contractors

At the request of the Tri-City Trades & Labor Council, the Granite City council instructed City Atty. Allen Monday night to prepare from model ordinances two laws that will control outside contractors doing work in the city.

Alderman Nomm, Ordinance committee chairman, who received the request from Edwin Reiske, Labor Council president, called for the ordinances to require bonds and to license contractors doing new construction work and those engaged in home remodeling and repair work.

In a letter to Nomm, Reiske said some contractors have been paying workers with bad checks, and Nomm added that householders have voiced complaints concerning interior work that has been done by out-of-town contractors.

"We need such controls, and perhaps Allen can find some laws on which to base our ordinances," Nomm said.

Sales Tax and MFT Add \$38.16 to GC Coffers

Added income for the city from state sources amounted to \$38.16, it was reported to the city council Monday night by City Clerk Homer "Cal" Pendleton.

Of the total, \$23.20 was sales tax for February, and \$14.96 was motor fuel tax funds for April. Both reports were referred to the comptroller.

Alderman Robertson noted the MFT allotment was considerably lower than past months. In March the city received \$17,769, while the allocation for February was \$24,270 and in January, \$20,538. A April 1966 MFT allotment was \$18,319.

Alderman Rutledge, Finance committee chairman, said the only reason he could see for the reduction was less travel by motorists and a decrease in gasoline sales in April.

Check Your Lighting

Spring weather puts many homemakers in a home-freshening mood. Take advantage of this mood to check your home lighting practices. Use this check list:

How many different types of lighting do you need? That depends on your family. However, authorities say that a home may need at least four types of lighting. These are room-wide, task, perimeter and accent. Task lighting gives light for specific jobs where you need it most. Perimeter lighting brightens the walls and ceilings. Accent lighting spotlights an object in the room, such as a portrait or flower arrangement.

Many lighting fixtures serve more than one function. But it usually takes a combination of portable and permanent fixtures to meet all lighting needs. Is too much light better than too little? Not really, for both produce the same effect—glare. Glare is hard on the eyes and may produce a number of ill-effects.

Can there be glare even when lighting is insufficient? Yes, because glare is misplaced light, whether there is too much or too little of it.

In total room darkness desirable for TV viewing? No, for the sake of your eyes, it's best to have light from several sources. The amount of light in the room should at least equal that coming from the screen. For best viewing, be sure that no lighted lamp reflects on the screen.

Do tinted and white bulbs with identical wattage give the same amount of light? No. Tinted or colored bulbs, absorb some light. When using them instead of white bulbs, buy the next highest wattage to get the same amount of light.

Which is more economical, a lighting fixture with a few sockets or one with many? It depends on the design of the fixture. Usually, however, it's more economical to have a few sockets and use higher wattage bulbs. With fewer bulbs, less light is lost in heat, so you get more light proportionately from a few bulbs than from many.

Does dust on light bulbs and fixtures make a difference? Yes. Dust can reduce light as much as 50%.

Do darkened areas in light bulbs make a difference? Yes. They reduce light quality. Therefore, it's wise to remove darkened bulbs from lamps used for visual tasks and put them in fixtures used for general room lighting.

Why Women Belong To Homemakers Extension

Dr. Cleo Hall, who was formerly assistant state leader of Home Advisers in this area, did her doctoral research on "Why Illinois Women Participate in Home Economics Extension Club Programs." In her study, Dr. Hall learned that in 1964 there were 12,000 members of the League of Women Voters; 418,000 members of the National Council of State Garden Clubs; 800,000 members of the General Federation of Women's Clubs; and 1,114,000 members of Home Economics Extension Clubs in the U. S.

In conducting her research, Dr. Hall questioned 997 club members in 78 counties of the state. From summarizing the information, Dr. Hall found that club members differed from each other in their primary reasons for attending club meetings—40% gave first place to improvement of homemaking competence; 31%, first place to intellectual growth; 11% to improvement of society; 5% to sociability; 4% to diversion; 2% to esteem; and 1% to social pressure.

The implications of this finding for continuing education in general are that within any one club

there are likely to be women who want to grow intellectually, some who want to improve their homemaking abilities, others who want to learn how to improve society in general or in specific ways, and still others who come for sociability.

From the finding that almost half of the members are interested in educational pursuits other than for homemaking (31% for general intellectual growth and 11% for improvement of society) it can be concluded that the subject matter coverage for home economics extension clubs might well be broadened to include more psychology, sociology, economics, political science, history, literature, drama, music, and art, to mention some of the possible subjects other than it currently includes.

Furthermore, the finding that 11% of the club members are primarily interested in the improvement of society indicates a group of non-professional leaders (11% of 44,487 members in Illinois in 1964) for new as well as established community programs for youth and adults.

An additional finding indicates that social pressure for adults to participate in educational programs remains fairly low. In spite of the fact that faith in education is a deeply ingrained value in the American culture, in this study 62 percent of the club members ranked social expectations as their lowest ranking reason for attending educational club meetings.

Dabble in Decorating

Because most families live in average homes with nice-but-ordinary bathrooms, it may be discouraging to see the splashy color photos of ultra-glamorous "celebrity" bathrooms which have become photographers' pets. Sunken tubs, window-walls curtained in shimmering fabric, and marble basins with gold fixtures seem remote from the average home with limitations on both space and glamour touches.

While it may seem well-nigh impossible to change the look of a small bathroom, actually almost any bathroom can be made to reflect the "period" chosen for the rest of the home—and without structural changes. Whether the decor is modern, French Provincial, Early American, or even Oriental in flavor, the bathroom can be coordinated with it.

For example, a distinctly Colonial look can be achieved by replacing the existing light fixture with one of the carriage lamp variety—adding wooden towel rings and bars, providing towels in an American eagle or small check pattern, and placing glass apothecary jars filled with soap and bath salts on the toilet tank or a shelf.

For a Victorian effect, try an ornately framed mirror, an "ice cream parlor" light fixture with white-glass globe, towels in lush tones of royal purple and moss green, and wall-to-wall carpeting in one of those rich shades. Carpeting adds a note of luxury to any bathroom. For complete practicality it can be cut and fitted by a home handyman—or women's sections sired to fit into a washer and dryer.

Even if more dramatic changes are not in the current budget, just a new shower curtain can give a lift to the entire room. Everything designed for bathroom use must be safely washable, of course, due to the very nature of the room. So it is worthwhile to investigate ways to give the bathroom a "period" look combined with easy upkeep.

County Board of Appeals Okays Nine Petitions

The Madison County Zoning Board of Appeals reported Tuesday recommendations for county board action on nine applications for rezoning or special use permits in cases pending in the Quad-City area. The recommendations were drafted following hearings on the requests.

The board recommended the granting of the petition of M. R. Harpole, owner, requesting a parking in an R-4 single-family special use permit for off-street residence district in Chouteau township. The recommendation stipulated that suitable dust-free surfacing be applied to the parking area and that a wire mesh-type fence be constructed to regulate the traffic flow.

Two petitions requesting rezoning of tracts located in the 3000-acre Industrial Park were held in "abeyance." The four tracts, rezoning of which has been petitioned by the Illinois Power Co. as owners of record, and the Continental Illinois National Bank and Trust Co. of Chicago, as trustees, are located in the Chouteau township section of the Industrial Park.

Approval of a petition of Lawrence and Mary Lockhart, owners, Chouteau township, requesting a special use permit for the production in an R-2 residence of plastic and wooden products for stabling of horses also was recommended by the appeals board.

List Recommendations
Other board recommendations included:

Granting of a petition of David Gene Buehrer for a special use permit to locate a mobile home in an R-3 One Family residence district in Chouteau township.

Granting of a petition of Anna Flowers for a special use permit to operate a florist shop in her home in an R-4 Single Family Residence district in Nameoki township.

Granting of a petition of Daniel Boone, Harvey Boone, Bradley Boone and Louis Green, owners, and Bud Arnold, purchaser, for a special use permit for a truck warehouse in an R-3 One Family residence district in Nameoki township. Approval is contingent upon agreement to install a dust-free surface in the truck parking area and that a chain fence of not less than six feet in height be constructed.

Granting of a petition of Carl E. Mainridge requesting a special use permit for an accessory building before a principal building to produce small animals for laboratory and other uses in an agricultural district in Nameoki township, with the stipulation the operation be carried on inside an enclosed building.

Granting of a petition of Charles Adams and Ben Zimring for a special use permit to locate a mobile home in an agricultural district in Nameoki township.

Bond Loss Due to Apathy, Lack of Civic Pride, Aldermen's Attitude

To the Editor: On Saturday, May 6, we the people of Granite City voted down one of the most important proposals in the life of the city. Voting it down was only "half the straw"; the other half was that less than 3200 interested people went to the polls to cast their votes.

It is really a "bad state of affairs" when less than 12% of the voters of a community decide the future of a city as large as Granite City. Are we really growing in apathy to the point where we do not care whether our city grows or dies? Was it because we read in the newspaper of the people who favored this proposal and assumed they were more numerous than those opposed? Did we feel so confident because of this that we didn't feel our vote was necessary and the proposition would carry anyway? Or was it because those who were opposed to it were a lot harder for their side of the question than those who favored it? Whatever the answer, we know it was defeated in one way by itself. If I recall correctly, an alderman in this was against the proposal and would work hard for its defeat. He did just that.

Now I am wondering what the

FEDERAL AID OFFERED FOR PARKS, RECREATION

To the Editor: I have been reading a copy of the President's message to Congress on natural beauty in our country.

In it he describes programs to encourage and help city and local government to acquire land for parks, recreation and open space.

Have park districts in this area initiated any effort to look into these federal grant programs to aid the future development and growth of this community?

PUBLICUS DISAGREEMENT ON COST, EXTENT OF PEST CONTROL

To the Editor: I have written to the Chamber of Commerce of a nearby city to make a complaint against a company whose men were in Granite City this morning going from house to house and giving a free inspection of one's premises for termites.

Knowing my house had some, I permitted a man to look at my basement. He said it could be some serious if not there is no sign of it. With that in mind I signed a contract to have my house rid of termites, though I had no idea how it was done.

That same day he came and worked about an hour and said he would return on a Saturday afternoon. One did but I told him to go. On Monday afternoon he came and said he would return the price was finished, or so they thought. They wanted the money right then.

I called their attention to several places they hadn't done. They went on. I did not pay them. I had waited for them to finish, and couldn't go to the bank before it closed.

On that Wednesday a man presented me with a bill for the work. I told him to send the salesman, since I wasn't satisfied with the work. In the meantime I had

Instructor Invents Grade-Graphic Folder

Garry Murphy, instructor of English language and literature at Southern Illinois University-Southwestern campus, has received a patent on his grade-graphic folder.

Murphy considers his invention a real boon to teachers and students. "It lightens the instructor's load and enlightens the student," he says, "because it can be used as a permanent file for the student's themes and for self-evaluation by the pupil."

Graphically pinpointing the nature of the student's errors, the grade folders shows his progress, his failure to overcome mistakes and eliminates the need for elaborate marginal comment. The patent on Murphy's idea was secured through the efforts of the SIU Foundation.

The folder retails for 15 cents. He lives at Godfrey.

Seaman James Matheny On Coast Patrol in Vietnam

Seaman James S. Matheny, Norvell G. Ward, Commander U. S. Naval Forces, Vietnam, the Swift and her companions in Operation Market Time are accomplishing their mission.

He is a member of Coastal Division 14, a unit of the U. S. Navy's Coastal Surveillance Force (Operation Market Time) which patrols the coast of Vietnam against infiltration of enemy forces and supplies by sea. Seaman Matheny is among the men who man a new kind of Navy boat known as the "Swift," officially known as Patrol Craft Fast (PCF), a 50-foot aluminum craft capable of speeds in excess of 25 knots.

Patrolling the waters off the mid-section of the Vietnamese coastline from the Navy base at Cam Ranh Bay, the crews of these boats search civilian junkies along the coast for contraband and infiltrators.

During a typical day the Navyman may act as Navigator, engineer, boat coxswain, cook and sometime as machine gunner. Each man of the six-man crew must be able to do everyone else's job.

With more than 80 boats the Swift is the most numerous boat type in Operation Market Time. According to Rear Admiral

City Council OKs Two Sideway Variations

Two sideway variations for new construction were approved by Granite City council members Monday night on recommendations by the Zoning Appeals Board.

Robert Hubner was authorized to erect a 45x45-foot addition to his hardware store, 2881 Madison avenue, and with a six-foot sidewalk instead of 20 feet; and David Jankowski, 2808 Fortune drive, was authorized to erect a garage with a four-foot sidewalk instead of seven feet.

The council also approved a special use permit for professional offices to be located at 3732 Nameoki road.

Authorization was given, based on a recommendation by the City Planning Commission, for Paul Hagler to erect two four-family apartment buildings at 2441 East 24th street, with an ordinance to be prepared to change the zoning from R-3 single-family dwelling to R-8 multiple-family.

Held in abeyance was the Planning Commission's recommendation for East St. Louis & Interurban Water Co. to be permitted to erect water storage facilities and a pumping station on a 1.5-acre tract west of Tri-Mor Bowl. Several council members said other matters, such as the water company's payment of sewage treatment fees and reluctance to install fire hydrants at various locations in the city, should be settled before such a permit is granted.

Tornado Assistance Studied

Gov. Kerner has conferred with representatives of the U.S. Office of Emergency Planning to discuss federal assistance available for the Northeastern Illinois areas hit by tornadoes.

A telegram from Farris Bryant, director of the Office of Emergency Planning, said:

"On behalf of the President, I wish to acknowledge your request of the date for federal disaster assistance because of tornado damage and flood of tornado work in your state. Our representatives are arranging to survey the damages so we can advise the President as to the additional needed assistance."

Deer Season Dates

William T. Lodge, director of the Illinois Department of Conservation, has announced the following dates for the 1967 deer season, as approved by the Conservation Advisory Board:

The gun season will open on Nov. 10 and close Nov. 15, a period of six days.

The bow season will be divided. The first will begin on Oct. 1 and end Nov. 6. The second will begin on Nov. 16 and end Dec. 31.

Information concerning how to apply for permits will be released at a later date.

Grand Champion Auctioneer

Bill Carter, Lewistown, nationally known auctioneer, has been selected by the Illinois State Fair officials to auction off the grand champion steer at the 1967 State Fair.

"The State Fair Advisory Board decision to auction the grand champion steer was made at the request of many breed association officers, and for several reasons," according to Frank Rust, general manager of the fair.

"Cattlemen contend that animals shown at the Illinois State Fair are at their prime as far as finishing is concerned. It is also the best time to get the top price for the animal."

"There is no reason why the buyers of the Illinois State Fair Grand Champion Steer cannot show it later. It is up to the buyer to make that decision," Rust said.

Crime A Top U.S. Problem

Crime, in the opinion of the public, is second only to race relations as one of the six major domestic problems in the United States.

Russ V. Randolph, director of the Illinois Department of Public Safety, said that this was revealed in a recent survey by the National Opinion Research Center (NORC). The survey further revealed that in the minds of many of the persons interviewed, crime is linked to other social problems. The national observ-

ance of Law Day on Monday, May 1, centers the attention of the nation's citizens on domestic, criminal and civil law.

Twenty-nine per cent of white persons with incomes of \$6000 a year or less who were interviewed cited race relations as the major problem facing this country; 27% of the same group cited crime as the most important domestic problem.

Sleeping Sickness Warning

Robert M. Schneider, director of the Illinois Department of Agriculture, issued a warning to all horse owners stressing vaccination of horses against equine viral encephalitis, commonly referred to as "sleeping sickness."

Dr. Paul B. Doby, superintendent of the Division of Livestock and Poultry Industry, said that "although 61 suspected cases of sleeping sickness with 30 deaths were reported in 1966, it is impossible to predict the seriousness of the disease this year."

"Vaccination prior to the insect season is the best insurance against this dread disease. Horses vaccinated last year should be vaccinated again this spring as immunity is of limited duration. Two injections are necessary to provide immunity."

ATTENTION: Homeowners & Home Buyers

"Don't Gamble With Your Future"

"YOU" cannot afford to trust the purchase or sale of your home (perhaps the biggest deal of your life) to anyone but a REALTOR.

A REALTOR is a PROFESSIONAL BUSINESS MAN who has earned the right to be a member and who subscribes to the rigid rules and regulations of the Local, State and National Real Estate Boards of America.

A REALTOR must earn his living only in the PROFESSION OF REAL ESTATE. He must maintain a full time business office (apart from his home) and he cannot accept part-time, untrained salesmen or other unlicensed personnel. He cannot work or be employed part time in any other industry.

A REALTOR is pledged to observe a very strict CODE OF ETHICS in the handling and servicing of every Real Estate transaction.

A REALTOR is further governed by a strong PROFESSIONAL STANDARDS COMMITTEE composed of several of the most respected members within the Local Real Estate Board. This Committee has the authority to discipline, fine or dismiss any fellow member who violates the CODE OF ETHICS in business practices with the public. Further, any Homeowner or Buyer who files a complaint or grievance against any Realtor for a private hearing before the PROFESSIONAL STANDARDS COMMITTEE.

A REALTOR may not use false or misleading advertising.

A REALTOR must not persuade, coerce or influence a client to accept a bad deal, in order to make a quick and easy commission. Such deals may leave the client with very little money or impose heavy financial burdens impossible to cope with.

A REALTOR must not make false promises or have the client sign blank or loosely written contracts, which will bind the client to a situation he never intended to enter.

A REALTOR is required by law and does, keep all the client's monies in a SPECIAL ESCROW BANK ACCOUNT, and is forbidden to use or commingle any part of these funds for personal use.

NOTE: (Records show many violations of this law)

REALTORS work and are closely associated with other professional men such as the best attorneys in the area, to safeguard the client's rights to Title and Property.

Again may we respectfully remind you,

Services were held yesterday in East St. Louis for Kermit F. Croissant sr., 62, of 5203 Highland Park road, French Village, who died at 5:45 p.m. Sunday, at Belleville Memorial Hospital. He leaves two sisters here.

A retired Union Electric Co. employee, Mr. Croissant is survived by his wife, Mrs. Genevieve Owen Croissant; a son, Kermit F. Croissant Jr., of East St. Louis; two sisters, Mrs. Paul Richards and Mrs. Genevieve Croissant, both of Granite City; five brothers, all of East St. Louis; and two grandchildren.

Sewage Treatment Fee Under Study In Special Cases

Special exemptions from the 90-cent monthly sewage treatment plant fee were requested Monday night by Alderman Whitmer, who asked the Pollution committee headed by Alderman Moerlein to review the cases of two individuals.

Moerlein said over 100 such requests have been received by the committee with only a few being given consideration. "If we cancel the charges in these cases, it could mean the 90-cent monthly charge could have to be increased," he cautioned.

In one case, he said, a three-unit apartment building is under construction in Lincoln Place east of Pine street and west of Madison avenue. An adjustment was made for one 90-cent fee to be paid until such time as the apartments are occupied.

Mr. and Mrs. Gary Chilton and son, Brian Todd, of Ivy lane spent the weekend in Piedmont, Mo., visiting Mr. and Mrs. Vernon Chilton. A sister, Miss Sue Chilton, returned with them for a few days.

Mr. and Mrs. Carl Cuccatti and family of Blue Bird lane had as weekend guests Mr. and Mrs. Bob Cuccatti and daughter, Rhonda, of Pinckneyville, Ill.

VISIT IN MISSOURI
Mr. and Mrs. Jerry Freeman and children, Glenn and Cindy, of Pine street spent the weekend visiting in Missouri. They visited Mr. and Mrs. Herman Whitfield and Mrs. Estelle Freeman of Clarkton, Mo., and Mr. and Mrs. Pat Freeman of Malden, Mo.

Collide in Madison
Cars driven by Joyce E. Berleman, Edwardsville, and Norma J. Sherry, 817 Madison avenue, were damaged in a collision at Sixth street and Madison avenue, Madison, at 6:30 p.m. Monday. The Berleman car was headed north on Madison avenue as the other car pulled out from behind a stalled car, police reported.

Hairdresser Group Meets
A combined board and business meeting of the Elite Hairdressers Association, Affiliate 33, was held Monday evening at the Granite City School of Beauty Culture with 16 members present. A guest artist attending the meeting was Mrs. Georgia Unbank of the Illinois Hair Fashion committee.

In the treatment plant account on April 30.

During the meeting, the council approved a final payment of \$1200 to the sewage treatment plant contractor, Nelson Construction Co.

Whitmer cited two cases where a shoe repair shop in a home in East Granite had no water connection—"not even a drinking fountain," and the owner was billed for the shop and also for his home. In the other situation, a plumbing shop was in a garage under an apartment and two bills were sent the owner, even though there was only a floor drain in the shop.

Moerlein said the cases would be studied. "But remember," he added, "if too many exceptions are made the 90-cent fee will go up."

Mayor Partney added that he had been attending a conference of mayors at Washington University last week concerning the sewage treatment plant fees. "Some are as much as \$2.20 a month," he said.

Moerlein went on to explain that under the sewage treatment plant revenue bond issue ordinance, the city could charge the 90-cent rate fee for a vacant lot.

"This fee is not only for treatment of sewage but also to pay for construction of the sewage treatment plant," Moerlein said. "I explain to people that it's just like a school tax. Even people without children pay taxes for schools, and it's a case of everybody paying for the sewage treatment plant that the city had to build under orders from the federal government."

The Pollution committee chairman reported the final payment of the federal grant for the treatment plant construction had been received by the city, amounting to \$86,665. It was received this month and was not included in the \$59,539 balance
